- No later than 5 working days in advance before Start-of-Lease (SoL)
- The containers are subject to availability

Planned start of use	Latest day and time for booking
Monday	Monday 16.00
Tuesday	Tuesday 16.00
Wednesday	Wednesday 16.00
Thursday	Thursday 12.00
Friday	Friday 16.00
Saturday	Friday 16.00
Sunday	Friday 16.00

*) All times in CET

- Minimum Standard Lease applies.
- SAS Cargo will inform shipper or forwarder in case it is not practically possible to carry out the request.
- Container ID will be available latest 24 hours before SoL.

Start of Lease (SoL)

The lease starts on the agreed delivery date to the lessee at the SAS Cargo origin station and the rental period begins at the indicated Startof-Lease Date and Time (SoL). The indicated SoL will be the basis for the calculation of the total rental fee. When the lease starts, SAS Cargo makes the containers available at the agreed station or respective handover point. Pickup and handover point for Envirotainer units is at the SAS Cargo station at airport of departure.

End of Lease (EoL)

A ULD received by the Consignee for unloading must be returned empty and clean to the SAS Cargo station where such ULD was received. The lease ends on the date the ULD is returned by the consignee or forwarder to the agreed SAS Cargo station. In the event the ULD not tendered back to SAS Cargo at defined EoL a demurrage charge will be assessed for each beginning 24 hour period. Return and handover point for Envirotainer units is any SAS Cargo station (normally airport of arrival)

Container Rental Fees

The Container Rental Fee covers a minimum rental period of 5 days per ULD (trip lease) and is not included in the rate. If the rental period is exceeded by reasons caused by SAS Cargo, then the incurred additional rental days will be assumed by the airline. If delay caused by force majeure SAS Cargo assumes no responsibility.

Additional Day Fee

If the planned trip lease exceeds the minimum rental period, the additional days have to be accounted for in the total lease calculation and charged on the invoice sent to customer by SAS Cargo after EoL.

Express Order Charges

An Express Order Charge shall be levied if cool container is ordered less than 4 days working days prior to Start of Lease (SoL). Express Orders are subject to additional charge.

Change Order Fee

All changes to the original order are subject to fee. All changes five (5) or more Business Days prior to SoL, are subject to a change order fee per booking and must be placed in writing using a new order request.

All changes four (4) or fewer Business Days prior to SoL, are subject to Express Order Charge. Increase in number of containers is treated as Express Order and is subject to an Express Order Fee per additional container. Decrease in number of containers ordered is treated as a cancellation and is subject to a cancellation fee per reduced container

A second change to a previously changed container order will be considered a Cancellation. Change in container type, AWB, or return airport is subject to a Change Order Fee per container. Increases/decreases of total loaded parcels are not subject to change order fee!

Cancellation Fee

Cancellation Fee is applicable if ULD cancelled 0-4 day prior to SoL. In case of cancellation of an Express Order, both, Cancellation Fee and Express Order Fee apply. If ULD is cancelled after SoL the full Container Rental Fee will be charged.

No-Return Value

A No-Return Value will be charged per container if not returned 21 days after EoL or if container returned damaged beyond repair.

3. Rating and fees

Price components: Rate plus add-on for special handling. Charges Collect (CC) is not accepted for Cool Active shipments. The minimum charge for the shipment is the applicable chargeable pivot weight specified for each cool-container.
